CONTINUOUS GROWTH PLANNED AT UC BERKELEY

UC Berkeley announced its updated Long Range Development Plan (LRDP) and draft EIR report in 2021 including 2 major new projects and an expanded campus population.

The proposed LRDP Update planning projection for the UC Berkeley population is **48,200 students and 19,000 faculty and staff in the 2036-37 academic year.** The LRDP Update proposed development program includes approximately **8,096,249 gross square feet of academic life, campus life, residential, and parking spaces,** including approximately **11,073 student beds and 549 employee housing units.**

THE TWO MAJOR NEW PROJECTS ARE:

Housing Project #1

(also known as the Helen Diller Anchor House or Anchor House)

The 0.92-acre site is located in the City Environs Properties and is across Oxford Street to the west of the Campus Park in Downtown Berkeley. It would involve the demolition of all the existing on-site structures and the construction and operation of a new 16-story (14 above ground and 2 below-ground levels) mixed-use building with a combination of residential, campus life, and uses not operated by UC Berkeley. The proposed Housing Project #1 would include student housing (approximately 770 beds), campus life space (approximately 20,000 SF), and ground-floor commercial (approximately 17,000 SF).

Housing Project #2

(also known as People's Park)

JUST 1 BLOCK TO 2470 TELEGRAPH AVENUE

The 2.8-acre site is located in the City Environs Properties three blocks south (0.2 miles) of the Campus Park at 2556 Haste Street. It would involve the demolition of the existing on-site structures and park amenities, and the construction and operation of two new mixed-use buildings with a combination of residential, campus life, academic life, and uses not operated by UC Berkeley. The proposed student housing building would include student and faculty/staff housing (approximately 1,187 beds), campus life space (approximately 12,000 SF), and ground-floor public space (approximately 3,500 SF). The affordable and supportive housing building would include affordable and supporting housing (approximately 125 beds) for UC Berkeley – and non-UC Berkeley – affiliated residents, and academic life space for a clinic (approximately 7,000 SF). The project site would include 82,000 SF of open space with amenities.
